Previous Halocarbon Lectures

Spring 2018
February 22

David Liu - Harvard University
  • Base Editing: Chemistry on a Target Nucleotide in the Genome of Living Cells

Spring 2017
June 2

Carolyn Bertozzi - Stanford University
  • Chemical Approach to New TB Diagnostics

Spring 2016
March 10

Chuan He - University of Chicago
  • RNA Methylation in Gene Expression Regulation

Fall 2015
Ben Cravatt - Scripps Research Institute

Spring 2014
Tom Muir - Princeton University

Spring 2013
J. Clark Lagarias - University of California, Davis

Fall 2012
Jay Keasling - University of California, Berkeley

Spring 2011
March 2

Kevan Shokat - University of California, San Francisco
  • Chemical Genetics

July 9, 2018
